## Press Release

### **AVerMedia Launches the Slim USB Digital TV Tuner for Mac Enjoy DVB-T Programs on Your Mac and PC with Rich Features**

Taipei, March 18<sup>th</sup> 2009

AVerMedia Technologies, Inc., the leading provider of digital multimedia technology announced today the release of the AVerTV Volar M, the tiny white TV stick for receiving DVB-T on any Mac with Intel Core® processor. The lightweight and compact design makes it a perfect TV mate for Mac. Shipping with two TV applications, AVerTV Volar M is also an ideal solution for dual boot Mac with OS X and Windows.

The AVerTV Volar M can easily insert into the USB port of Mac. An additional USB extender cable is also provided for flexible application. The accompanying AVerTV for Mac delivers crystal-clear video quality and allows users to record, rewind, pause, and fast-forward live TV. In the areas with HDTV broadcasting, it can even present the astonishing 720p/1080i HDTV (MPEG-2 format).

Even better, with AVerTV for Mac's intuitive and sleek on-screen menu, users can switch channel, record program, take screenshots, or check the upcoming programs. With AVerTV Volar M, watching TV on your Mac can be as easy as using an iPod. Users can call out all the key functions of AVerTV for Mac with Apple Remote in hand. The PIP function makes you watch live TV and video at the same time. The screenshot function preserves all precious scenes you love. With its EPG and scheduled recording functions, you don't have to worry about missing any favorite show when you are not at home.

Designed with the Mac users in mind, AVerTV for Mac brings you an unprecedented using experience. When AVerTV Volar M is inserted, the AVerTV for Mac can detect it and turn on automatically. Watching TV on Mac is just like a snap! Also, it embeds search engine into its EPG and toolbar. There is no worry for finding a function or program you want. Just type in the keywords and here you are. AVerTV Volar M also comes with AVerTV 6, the TV application for PC. It can benefit those who run both OS X and Windows on their Mac with Boot Camp.
